

Update to Buyers' Guide

NSW Buyers' Guide

1. Products which have been reclassified:

Parmalat Australia:

- Just Natural Iced Coffee 98% Fat Free Milk 500ml
- Oak UHT Milk – Iced Coffee 300ml

Lion Dairy & Drinks Australia Pty Ltd:

- Dairy Farmers Classic - Iced Coffee 98% 300ml

The above product classifications have changed from **Everyday** to **Occasional** because of their coffee content. We have been informed of this by the NSW Ministry of Health, and this is a summary of the information provided to us:

- *All milks which contain any coffee are Occasional in canteens and should not be sold in primary schools, as per the ready reckoner in the Food and Drink Criteria. A coffee flavoured milk drink can only be classified as Everyday if it does not contain any coffee.*
- *The primary rationale for this is that although the coffee content looks very small, it is on a weight/volume basis. 0.5% coffee powder or instant coffee is roughly equivalent to a teaspoon of instant coffee in 200mL, which is a regular strength coffee.*
- *If a product containing coffee could be reformulated by using decaffeinated coffee/coffee flavour instead, it could then be considered as an Everyday beverage (depending on the serving size: i.e. <300ml for primary schools; and <500ml for secondary schools).*

2. Products with name changes or which have been deleted:

Good Food Hero:

- BBQ Chicken Drumsticks & Chilli Rice 320g **Deleted**
- Beef Stroganoff & Pasta 220g **Soon to be deleted**
