

## Using Fruit & Veg Month Canteen Stickers

### **About the Resource**

Use these stickers to identify your Fruit & Veg Month 2021 canteen specials and/or provide them to students when they purchase a fruit and veg containing canteen item over the month.

Information on how to print the stickers is provided below.

### **Printing the stickers**

These stickers can be printed in-house, on a standard office printer.

#### *Purchasing information*

Purchase 40 mm round sticker labels on sheets. These size stickers are a standard label size and retail for between \$5.00 to \$10.00 per 100 stickers (not including postage).

#### *How to print information*

Download the sticker sheet template from the Fruit & Veg Month 2021 resource page – this can be accessed via [healthy-kids.com.au/teachers/fruit-veg-month/2021-resources](https://healthy-kids.com.au/teachers/fruit-veg-month/2021-resources).

Place the label sheets in the correct printer tray. On the printer choose A4 size (full bleed) and colour. Do a test on one label sheet to ensure the orientation of the sheet is correct (e.g. the sticker sheet needs to be face up or face down) and that the printer settings are correct.
